Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The prior art of record are silent on the combination of an electro-optical voltage sensor and the method for measurement of an electrical voltage V , the voltage V being present between two electrodes, and generating an electric field, the electrodes, being arranged in a manner spaced apart from one another, and an electro-optically active medium being arranged between the electrodes, into which medium light can be radiated, it being possible to influence the state of polarization of said light in the electro-optically active medium by means of the electric field and to detect it after emergence from the electro-optically active medium, it being possible to determine the voltage V from the detected state of polarization, wherein a distance medium is arranged between the two electrodes, the electro-optically active medium being arranged with an effective thickness d_1 and the distance medium with an effective thickness d_2 between the two electrodes, and the effective thicknesses d_1 , d_2 being chosen in such a way that temperature influences on the detected state of polarization of the light are essentially compensated for.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for allowance."
